

# Saskatchewan Consumer Price Index

April 2014

---

According to Statistics Canada, the Saskatchewan All-items Consumer Price Index increased 0.2 percent between March 2014 and April 2014 while the Canada All-items Index advanced 0.3 percent. The Regina All-items Consumer Price Index rose 0.2 percent while the Saskatoon All-items Index was unchanged from the previous month.

In Saskatchewan, the April All-items Index increased from March 2014 primarily due to higher prices for gasoline, travel tours, water and postal and other communication services. Prices also increased for seeds, plants and cut flowers, fresh or frozen pork and recreational equipment and services (excluding recreational vehicles).

Moderating these increases were lower prices for women's clothing, men's clothing, household appliances and furniture. Prices also fell for non-alcoholic beverages, fresh vegetables and fresh fruit.

The Saskatchewan All-items Consumer Price Index advanced 2.8 percent between April 2013 and April 2014 while the Canada All-items Index increased 2.0 percent. The Regina and Saskatoon All-items Consumer Price Index climbed 2.7 percent and 2.6 percent, respectively, during the same period.

The April All-items Index increased from April 2013 primarily due to increased prices for gasoline, the purchase and leasing of passenger vehicles, the purchase and operation of recreational vehicles and passenger vehicle insurance premiums. Prices also advanced for electricity, food purchased from restaurants and cigarettes.

These increases were partially offset by decreased prices for non-alcoholic beverages, traveller accommodations, telephone services and prescribed medicines. Prices also declined for clothing accessories, watches and jewellery, household appliances and preserved fruit and fruit preparations.
